

Maui Association of Landscape Professionals
presents

Benefits of Composting - Gerry Ross of Kupa'a Farms

Join us for this virtual meeting via Zoom

Thursday, December 17 5:00 PM

Do you know the difference between compost and mulch? Gerry will be discussing the many beneficial aspects of using compost (and why it's different than mulch) in the landscape industry as well as the practical aspects of making and assessing compost quality.

Gerry Ross has a PhD in Earth Science. Prior to moving to Maui, he worked as a geologist in Canada. He currently owns Kupa'a Farms, where he grows a wide variety of vegetables, fruits & coffee. Gerry also works as a consultant for farmers on a range of topics including crop planning, cultivation, crop rotation and greenhouse management.
